

TECHNICAL INFORMATION

Our first Veranda collection set the benchmark for outdoor and easy-care fabrics, combining the high performance of solution dyed acrylic with an exclusive softness and aesthetic appeal that is usually only found in natural fibre products.

Using the same innovative fibre, Veranda II expands the range with the introduction of new characterful yarns such as chenille and bouclé.

The collection features all the easy-care characteristics expected for outdoor use, in a coordinated range of woven textures and designs that is perfect for both indoor and outdoor settings.

- 100% solution dyed acrylic yarn
- Treated with a water-repellent and stain-resistant Teflon® finish
- Mould, stain and salt resistant
- Breathable
- Washable at 30 degrees
- Colour fastness to weathering: 7 to 8 out of 8 on the blue scale after 1500 hours of exposure in accordance with EN ISO 105 B04
- OEKO-TEX certified. Guaranteeing that only dermatologically friendly substances have been used in the production and finishing processes
- Combining high-performance aspects and easy-care features expected for outdoor use
- Suitable for indoor*/outdoor use
*Customers in the UK and Eire should be advised that due to British FR Standards, these fabrics are for outside use only and under no circumstance should be used or stored inside
